Announcement 692

Type of Service Matched Systematically to Type of TPL Coverage on File for Claim Processing

Effective with claims processed on or after November 18, 2013, the Medicaid Management Information System (MMIS) matches the type of service to the type of Third Party Liability (TPL) coverage on file, so claims no longer require special batching for this reason. Providers are encouraged to begin submitting these claims electronically. For information regarding enrolling in electronic billing, please contact an HP Enterprise Services EDI coordinator by calling (877) 638-3472; select options 2, then 0, then 3. Claims that have been zero paid or denied by the Other Health Coverage (OHC) will still require special batching, i.e., submit a paper claim with the EOB and a cover letter to request special batch for TPL.
